

POWER DRIVEN UNCOILERS

Art. PS 25-30-35

They are used for UNCOILING and STRAIGHTENING the wire for cold formers, nut formers and bolt makers.

Advantages:

PS pre-feeds and prestraights the wire with only one operation

Downtime for the operation of coil changeover is reduced

Reduced load of the cold formers feed rolls.

Elimination of straightening unit

Floor space reduction for coils with large diameter

Safety operator with automatically stopping of the production machine for bound coil conditions

		PS 25	PS 30	PS 35
Max. wire diameter R = 560 N/mm ²	mm	25	30	35
Max. wire diameter R = 700 N/mm ²	mm	20	25	30
Feed rolls diameter	mm	200	250	300
Coil weight capacity	kg	2000	2000	2800
Pre-feed speed	m/min	15	15	10
Motor power	kW	3	4	5,5
